

# PALESTINA

## DOELEN/OBJECTIFS/GOALS :

**Inclusive education:** By contributing to an enabling environment at social, political, legal, economic and environmental level and to improved coverage and access to quality and inclusive education, we improve access for all children and youth without any discrimination to attend school, training and extra-curricular activities without interruption and in safety

**Health:** By increasing awareness and advocating improvement of social determinants of health, in particular access to universal health coverage, healthy working conditions, the needs of vulnerable groups and the impact of conflict, we contribute to the realization of the right to health for all Palestinians.

**IL, good governance and civil society :** By supporting and joining forces with Palestinian, Israeli and international civil society actors we strengthen the rule of law and hold duty bearers and non-state actors in Palestine, Israel and the European Union accountable.

**Resilient rural livelihoods:** By strengthening the resilience of Palestinian agricultural communities and other actors in the value chain, by advocating authorities and by increasing pressure on Israel to allow unhindered movement of goods, people and access to resources, we contribute to the establishment of an inclusive, participatory, sustainable, rights-based and profitable Palestinian food system.
